SLO Focus Statement			
<i>What will you teach in the SLO? What is the expectation for student improvement related to school improvement goals?</i>			
			SLO focus statement describes a broad goal for student learning and expected student improvement.
			Reflects high expectations for student improvement and aims for mastery of content or skill development.
			Is tied to the school improvement plan
Baseline – Trend Data			
<i>What data were reviewed for this SLO? How does the data support the SLO?</i>			
			Identifies source(s) of data about student performance, including pre-assessment, trend data, historical data, prior grades, feedback from parents and previous teachers, and other baseline data
			Summarizes student data to demonstrate specific student need for the learning content tied to specific standards (including strengths and weaknesses)
Student Population			
<i>Who are you going to include in this objective? Why is this target group/student selected?</i>			
			Justifies why this class and/or targeted group was selected, as supported by data comparing the identified population of students to a broader context of students (i.e., other classes, previous year's students, etc.)
			Describes characteristics of student population with numeric specificity including special needs relevant to the SLO (e.g., I have 6 English language learners, 4 students with reading disabilities...)
			Includes a large proportion of students including specific target groups where appropriate
Standards and Learning Content			
<i>What are the standards connected to the learning content?</i>			
			SLO is a goal for student learning that identifies big and core ideas, domains, knowledge, and/or skills students are expected to acquire for which baseline data indicate a need
			Aligns to specific applicable standards (Common Core, Connecticut, National or industry standards)
Interval of Instruction			
<i>What is the time period that instruction for the learning content will occur?</i>			
			Specifies start and stop dates which includes the majority of the course length
Assessments			
<i>How will you measure the outcome of your SLO?</i>			
			Identifies by specific name the pre-assessments, post-assessments, and/or performance measures
			Aligns most of the assessment items or rubric criteria to the learning content tightly
			Assessment or performance measure is designed to assess student learning objectively, without bias, and includes plans for standardized administration procedures
			Includes a majority of constructed-response items and higher order thinking skills
			Performance measures allow all students to demonstrate application of their knowledge/skills
			Indicates that there are clear rubrics, scoring guides, and/or answer keys for all items
Indicators of Academic Growth and Development (IAGDs)/Growth Targets			
<i>What are the quantitative targets that will demonstrate achievement of the SLO?</i>			
			Sets individual or differentiated growth targets/IAGDs for a large proportion of students that are rigorous, attainable, and meets or exceeds district expectations (rigorous targets reflect both greater depth of knowledge and complexity of thinking required for success)
			Baseline and trend data support established targets.
			Growth targets are based on state test data where available.
Instructional Strategies			
<i>What methods will you use to accomplish this SLO? How will progress be monitored? What professional learning/supports do you need to achieve this SLO?</i>			
			Identifies and describes the key instructional philosophy, approach, and/or strategies to be taken during instruction
			States how formative assessments will be used to guide instruction
			Identifies professional learning/supports needed to achieve the SLO
			Defines how each educator contributes to the overall learning content when more than one educator is involved in the SLO
Overall Rating for SLO

Pre-Observation Plan for Classroom Teachers

Teacher:		School:		Date:	
Grade Level/Subject:		Date/Time of Observation:			

Directions: This plan should be completed and provided to the evaluator at least 24 hours prior to the pre-observation conference and the formal observation. The CSDE does not recommend use of this form for every day planning purposes.

Content Standards: Identify one or two **primary** content standards, including CCSS that this lesson is designed to help students attain.

Literacy through the Content Area: If you will be using any strategies for teaching literacy in the content area, describe your plan.

Placement of Lesson within Broader Curriculum/Context: Where does this lesson fall within the sequence of the larger content standards or curriculum? Is it at the beginning, middle or end of a sequence of lessons/or unit leading to attainment of the content standards? How will the outcomes of this lesson and student learning impact subsequent instruction?

Learner Background: Describe the students' prior knowledge or skill, and/or their present level, related to the learning objective(s) and the content of this lesson, using data from pre-assessment as appropriate.

Objective(s) for Lesson: Identify specific and measurable learning objectives/purpose for this lesson.

Assessment: How will you ask students to demonstrate mastery of the student learning objective(s)? *Attach a copy of any assessment materials you will use, along with assessment criteria.* What data or evidence of student learning will be collected through the assessment?

Materials/Resources: List the materials you will use in each learning activity including any technological resources.

Lesson Development/Instructional Strategies

- Identify the instructional grouping/s (whole class, small groups, pairs, individuals) you will use in each lesson segment and approximate time frames for each.
- Describe what instructional strategies you will use, and the learning activities in which students will be engaged in order to gain the key knowledge and skills identified in the student learning objective(s). This may also include a description of how you will *initiate* (set expectations for learning and purpose) and *close* (understanding the purpose) the lesson.

Students Needing Differentiated Instruction:

Note: Differentiated instruction may not be necessary in every lesson. However, over the course of the year, it is expected that each teacher will demonstrate the ability to differentiate instruction in order to meet the needs of students with learning differences.

Identify several students with learning differences. Students should represent a range of ability and/or achievement levels, including students with IEPs, gifted and talented students, struggling learners, and English language learners.

Which students do you anticipate may struggle with the content/learning objectives of this lesson?		
Student initials or group	Evidence that the student needs differentiated instruction	How will you differentiate instruction in this lesson to support student learning?
Which students will need opportunities for enrichment/higher level of challenge?

Pre-Observation Conference Protocol

Teacher:		School:		Date:	
----------	--	---------	--	-------	--

Directions: These questions should be asked of the teacher before the observation and based on the plan received prior to the observation.

1. Will you still be implementing the plan you submitted or has it changed?
2. Do you have any additional data, artifacts or information about the lesson or the students' learning or behavior you wish to share?
3. On what assessment data/evidence did you base your determination of prior or present level of knowledge and skills for the class versus those needing differentiation?
4. Do you anticipate any student misconceptions, misunderstandings or challenges?
5. How do you know that the strategies/tasks/questions are appropriately challenging for the students? How will students be engaged in problem-solving or critical thinking?
6. How did you decide upon the lesson based assessment strategies you will use?

Post-Observation Reflection

Teacher:		School:		Date:	
----------	--	---------	--	-------	--

Directions: This reflection may be completed and provided to the evaluator prior or recorded with the evaluator during the post-observation conference.

1. As you think about your lesson and how it progressed, which of your instructional strategies were most effective in helping students learn? What evidence supports your conclusions?
2. If you made changes or adjustments during your lesson, what were they and what led you to make them?
3. To what extent did students achieve the learning outcomes you intended? What evidence from student work or assessment do you have that provides you with sufficient information about student learning/progress towards the learning outcome? (Bring student work or assessments from the lesson to the post-conference.)
4. In our pre-conference we discussed students requiring differentiated instruction. **Briefly** describe what you observed about the performance of the students for whom the instruction was differentiated.
5. What have you learned from this lesson or others that will impact your planning for future lessons, either in terms of your own instructional skills or in addressing students' instructional needs? If you were to teach this lesson again, would you do anything differently and why?
6. As you reflect on your overall instruction and student learning, what have you identified as areas for your own professional growth to support student learning?

Mid-Year Teacher Self-Assessment Reflection

Teacher:		School:		Date:	
----------	--	---------	--	-------	--

1. Describe your progress to date for each goal/SLO.

- A. Focus Area:
- B. Parent Feedback Goal:
- C. SLO 1:
- D. SLO 2:

2. Describe the professional learning and/or strategies that have contributed to your progress.

3. Describe the professional learning and/or strategies that have contributed to your progress.

4. What modified action steps and/or adjustments will you implement to address challenges or continue to make progress towards your goals/SLOs?

5. Other comments.
